KORALUX triple innovation

New design, new models, competitive prices.

KORADO is launching a new collection of KORALUX radiators in a wide range of styles, colours and shapes in three brand new product series: Standard, Classic and Comfort. Thanks to innovative production technologies we can offer even more competitive prices now. KORALUX radiators bring a solution for heating in all interiors including even the smallest bathrooms.

Bright white colour

A bright white colour as standard now.

KORADO radiators follow recent trends of fresh and bright colours. Our radiators are now produced in colour RAL 9016 as standard without any extra charge. The old colour RAL 9010 can be delivered on request.

Change of product codes for RADIK panel radiators.

KORADO has extended the range of RADIK panel radiators. Together with this extension we are introducing new product codes for RADIK panel radiators. The new code is more complex and enables an easier identification of the radiators size. You will find all the details of the new product codes in the product catalogue RADIK.
